QUALITY POLICY STATEMENT

Barry Chinn Associates believe in the principle of continual improvements in the landscape architectural consultancy services offered to clients.

Our principal aim is to enhance the landscape through the design solutions we produce for our clients with a service that conforms to stated or agreed specifications/order requirements.

The establishment of a QEMS is therefore the foundation to establish a company culture centred upon continuous quality improvement.

The QEMS is based on the requirements of BS EN ISO 9001:2008 and BS EN ISO 14001:2004 and Barry Chinn Associates are fully committed to complying with these requirements. The system has been developed to enable full integration of in-house and client specific requirements.

The aims of the QEMS are to monitor the service offered and to prevent defects at the earliest stage possible. This in turn improves the overall efficiency of the practice and assists in the compliance with the annually formulated quality and environmental objectives.

The QEMS will provide the foundations to ensure that our services will meet client requirements and provide satisfaction with regard to product reliability, quality and delivery of the service.

This policy will be communicated to all staff and any necessary external interested parties i.e. suppliers and sub-consultants that may be working on our behalf, and will be available to the public via Barry Chinn Associates web site: www.bca-landscape.com

Management will formulate quality and environmental objectives on an annual basis during management reviews and will ensure the routine monitoring, measurement and achievement of set objectives.

Signed: 
Barry Chinn
Managing Director
